Mathematics

Level 1

Section A (Non-Calculator)

You must have:

Pen, HB pencil, eraser, ruler graduated in cm and mm, protractor,
pair of compasses. Tracing paper may be used.

Total Marks

My signature confirms that I will not discuss the content of the test with anyone.

Signature: _____

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Sign the declaration.
- Answer **all** questions.
- Write your final answers in the boxes provided.
- Answer the questions in the spaces provided – *there may be more space than you need.*
- You **must** show clearly how you get your answers in the spaces provided. Marks will be awarded for your working out.
- Check your working and your answers at each stage.
- Diagrams are **not** accurately drawn, unless otherwise indicated.
- **Calculators may not be used.**
- Take the value of π to be 3.14

Information

- The total mark for this section is 14.
- The marks for each question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*
- This sign ☒ shows where marks will be awarded for showing your checks.

Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.

P 6 4 9 5 8 A 0 3 0 8

3 Lee works in a garage.
He has these jobs to do on Tuesday

- service 1.5 hours
- oil change $\frac{3}{4}$ hour
- replace headlight 20 minutes.

Lee will start the first job on the list at 9 am.
He will have a break of half an hour after the first two jobs.

Lee thinks he will finish the last job before 1 pm.

Will Lee finish the last job before 1 pm?

(4)

(Total for Question 3 is 4 marks)

4 Place the correct number in the space to complete the sentence.

(a) Angles around a point add up to degrees.

(1)

Shelley reads an article about holidays in 2018
She sees this pie chart.

The pie chart shows where 1800 people went on holiday in 2018

Shelley thinks that 540 of these people went abroad on holiday.

(b) Is Shelley correct?
Show why you think this.

- 6 Jilly works at a school.
She is going to make a vegetable patch in a field at the school.

The vegetable patch will

- have an area of 24 m^2
- be rectangular in shape
- be at least 2 m away from each edge of the field.

Jilly will put fencing around the vegetable patch.
Fencing can be cut and joined.

Jilly has 5 lengths of the fencing.
Each length of the fencing is 5 m long.

Does Jilly have enough fencing to go along each side of the vegetable patch?
You **must** draw the space for the vegetable patch on the grid opposite.

- 8 Pierre is a teacher.
There are 13 boys and 17 girls in his class.

Pierre chooses one of these students at random for a presentation.

- (a) Work out the probability this student is a boy.

(2)

Pierre travels to work on the train.
He records whether the train is on time or late.

These are his results after 20 train journeys

- on time 15 days
- late 5 days.

- (b) Mark with a cross (X) the probability the train is on time on the scale.

(1)

(Total for Question 8 is 3 marks)

- 9 Juliet wants to check her gas bill.
She has this information.

month	May	June	July	August	September	October
units used	430	276	205	168	261	565

Juliet thinks the mean number of units she used for the 6 months was more than 300

- (a) Is Juliet correct?
Show why you think this.

(3)

- (b) Use a reverse calculation to show a check of your mean.
