Writing Mark Scheme (Sample Assessment Paper 1)

Mark scheme information

This mark scheme is intended to support the valid and consistent marking of the examination paper identified above. This mark scheme includes:

- the total mark available for each activity
- the individual subject content coverage of each activity as well as coverage totals
- the marking process and considerations which must be followed.

Information for the marker

- The pass **mark** for this paper is **31 marks**.
- All marking must be completed consistently and the mark scheme must be applied fairly.
- Markers should award full marks if the candidate deserves full marks.
- Markers should be prepared to award zero marks if the candidate's response is not worthy of credit according to the guidance for that activity.
- Crossed-out work should be marked unless the candidate has replaced it with an alternative response.
- If the candidate only completes the planning box and no other response is included, examiners should reward marks using 'best-fit'.

Skills Coverage is broken down into bands, each with its own set of descriptors.

Markers should read the response closely and should then determine a judgement about which descriptor, in consideration of all the evidence available to the Marker, best defines the response provided.

The exam paper itself will allow you to record proposed marks and initial thoughts in the margin of the page as you read through the responses.

You must consider **Composition** and **SPaG** for both pieces before combining the two to confirm the final mark.

This marking guidance covers both Activity 1 and Activity 2.
