

FUNCTIONAL SKILLS MATHEMATICS

AQA | Edexcel | City & Guilds | Open Awards | NCFE | Highfield

Level 1, Level 2

Addition and Subtraction

Materials

- You **cannot** use a calculator for **questions** with this symbol.

Instructions

- Answer **all** questions.
- Answer questions on separate paper.

Information and Advice

- The marks for each question are shown in brackets – use this as a guide on how long to spend on each question.
- Read each question carefully before you answer it.
- Check you answers.

Q1 Use the column method to give a value for $956 + 288$.

[2 marks]

Q2 David has £13.20, and buys a ticket to a film for £7.99. How much does he have left?

[1 mark]

Q3 Jon buys a car for £19000, and trades in his old car for £5100. Before buying the car, he had £28500 in his account. How much money does he have left?

[3 marks]

Q4 Dominique buys a house for £175000 using a deposit of £40000. She also has a Help to Buy scheme, which gives her an extra £3000. How much does she have to pay off?

[3 marks]

Q5 The table below gives scores for the first round of the Stanley Cup in 2021. The scores are listed vertically, so for example, Game 1 was a 2 – 1 win for Montreal.

Game	1	2	3	4	5	6	7
Toronto Maple Leafs	1	5	2	4	3	2	1
Montreal Canadiens	2	1	1	0	4	3	3

Find the overall score over 7 games.

[2 marks]

Q6 Find the value of $95410 - 49731$.

[1 mark]

Q7 Use the column method to find $37501 + 63344 + 5256$.

[2 marks]

Q8 A basketball team scores 38 2-point shots, 10 3-point shots and 5 free throws (worth one point each). Their opponent scores 124. How much do the team lose by?

[3 marks]
