

Please check the examination details below before entering your candidate information

Candidate surname

Other names

**Pearson Edexcel  
Functional Skills**

Centre Number

Candidate Number

**\*\*\*Past Paper 4\*\*\***

Time: 1 hour 30 minutes

Paper Reference **PMAT2/C04**

**Mathematics**

**Level 2**

**Section B (Calculator)**

**You must have:**

Pen, HB pencil, eraser, ruler graduated in cm and mm, protractor, pair of compasses. Tracing paper may be used.

Total Marks

**My signature confirms that I will not discuss the content of the test with anyone.**

Signature: \_\_\_\_\_

**Instructions**

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Sign the declaration.
- Answer **all** questions.
- Write your final answers in the boxes provided.
- Answer the questions in the spaces provided – *there may be more space than you need.*
- You **must** show clearly how you get your answers in the spaces provided. Marks will be awarded for your working out.
- Check your working and answers at each stage.
- Diagram are **not** accurately drawn, unless otherwise indicated.
- **Calculators may be used.**
- If your calculator does not have a  $\pi$  button take the value of  $\pi$  to be 3.14

**Information**

- The total mark for this section is 48.
- The total mark for this paper is 64.
- The marks for **each** question are shown in brackets – *use this as a guide as to how much time to spend on each question.*
- This sign  shows where marks will be awarded for showing your checks.

**Advice**

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.

**Pearson**

**SECTION B**

**Answer ALL questions. Write your answers in the spaces provided.**

- 1 Johan is cooking using an old recipe.  
The recipe says to preheat the oven to a temperature of 350°F.

The oven Johan uses is marked in centigrade (°C).  
He finds this formula to change from °F to °C.

$$C = \frac{5(F - 32)}{9}$$

$C$  = temperature °C  
 $F$  = temperature °F

Johan sets the oven temperature to 190°C.

Has Johan set the oven to the correct temperature for this recipe?

2 Here is the net of a 3D object.

**Key** 1 cm on the grid represents 5 cm on the 3D object

Draw a sketch of the 3D object.  
Remember to label the dimensions on your sketch.

(3)

(Total for Question 2 is 3 marks)

- 3 The scatter diagram shows some information about the engine size in litres and average fuel consumption in miles per gallon (mpg) of some cars.

Here is the information for another car

- engine size 2.3 litres, average fuel consumption 36 mpg.

(a) Plot this information on the scatter graph.

(1)

(b) Draw a line of best fit on the scatter graph.

(1)

Mikael buys a car with an engine size of 4.2 litres.

(c) Use your line of best fit to estimate the average fuel consumption of this car.

(1)

mpg

(d) What type of correlation is shown in this scatter diagram?

Tick  a box to show your answer.

4

(a) Work out  $\frac{(3^3 - 4^2) + 7}{2.5}$

(1)

(b) Write the following values in order of size.  
Start with the smallest value.

0.5       $\frac{5}{9}$       0.53       $\frac{4}{7}$       47%

(2)

(Total for Question 4 is 3 marks)

- 5 Misbah is a midwife at her local hospital. She is writing a report about changes in the average weight of a baby at birth.

Misbah has this information about birth weights in 2018 at the hospital.

Weight (kg)	2.9	3.0	3.1	3.2	3.3	3.4	3.5	3.6	3.7
Frequency	26	48	74	113	167	132	109	92	36

Misbah can use this graph to change between kg and lb.

Misbah wants to write about the percentage change in the modal weight of a baby from 1998 to 2018

She finds out that the **modal** weight of a baby in 1998 was 7.7 lb

What is the percentage change in the modal weight of a baby from 1998 to 2018?  
Write your answer to the nearest whole number.

(5)

%

(Total for Question 5 is 5 marks)

6 Kasim wants an extension built onto his house.

The diagram shows part of the house and the centre of a tree.

**Key** 1 cm on the grid represents ..... m on the ground  
X represents centre of tree

The length of the house is 36 m.

(a) Complete the key.

(1)

The extension will be in the shape of a rectangle with width of 10 m and the same length as the house.

The roots of the tree grow in a circular shape.

The roots grow to a maximum length of 20 m from the centre of the tree.

The extension will need deep foundations if built over the roots.

(b) Will the extension need deep foundations?  
Use the grid to show why you think this.

7 Tess works for a drinks company.  
She is told that it is better for the environment if less metal is used when making cans.

She starts to design a new can that is taller and narrower than the old can.  
The new can

- is in the shape of a cylinder
- has a diameter of 52 mm
- has a height of 154 mm
- holds the same amount of drink.

Tess knows that  $27\,332\text{ mm}^2$  of metal is used to make the top, the side and the bottom of each old can.

She thinks that her design will use less metal to make the top, the side and the bottom of each new can.

Is Tess correct?  
Show why you think this.

(4)

(Total for Question 7 is 4 marks)

8 Last week 263 people passed their driving test at a test centre.

The table shows information about the number of driving tests these people took before passing.

Number of driving tests taken	Frequency
1	118
2	74
3	43
4	21
5 or more	7

(a) What is the probability that a person chosen at random passed their driving test on the first attempt?

(1)

(b) What is the probability that a person chosen at random did not pass their driving test on the first attempt?

Keely sees a car she wants to buy.  
The purchase price of the car is £4200

She can pay the purchase price in full or use this payment plan.

**Payment plan**

Pay  $\frac{2}{5}$  of purchase price today

24 monthly payments of £112.90

Keely knows that using the payment plan will cost more than paying in full.

(c) How much more will Keely pay using the payment plan?

(3)

£

(Total for Question 8 is 6 marks)

9 Ryan is doing a project about sugar at school.  
He wants to compare the amount of sugar in grapes with the amount of sugar in cookie dough.

Ryan finds this information

- grapes weighing 92 g contain 15 g of sugar
- cookie dough weighing 610 g contains 110 g of sugar.

Ryan thinks that there is a higher percentage of sugar in the cookie dough than in the grapes.

Is Ryan correct?  
Show why you think this.

10 Here is an isosceles triangle.

It has a

- base length of 13.9 cm
- perimeter of 38.2 cm.

(a) Work out the length of side  $a$  on the triangle.

(2)

$a =$   cm

Here are some calculations.

$$40 \div 14$$

$$40 - 10 - 10$$

$$14 \times 38$$

$$\frac{40 - 14}{2}$$

$$38 - 14 \times 2$$

$$\frac{40 + 14}{2}$$

$$38 - 14 - 14$$

(b) Which calculation is suitable as a check using estimation?

Tick  the calculation to show your answer.

(1)

(Total for Question 10 is 3 marks)

11

(a) Write 6.8% as a decimal.

(1)

Jess invests £3800 into a savings account for 3 years.

She will not put any extra money into the account.

She will not take any money out of the account.

The investment will earn 2.4% compound interest per year.

(b) Work out the total amount of interest earned after 3 years.

£

(Total for Question 11 is 5 marks)

12 Andy works at a medical centre.

He reads a news report about a shortage of doctors in some parts of the UK.

The report states the following figures for the UK

- the average number of patients per doctor is 1734
- the range is 826 patients per doctor.

The table shows some information about the number of patients for each doctor at the medical centre.

Doctor	Number of patients
A	1348
B	1847
C	1760
D	1562
E	1240
F	1703

Andy needs to write a report to compare the figures for the medical centre with the figures for the UK.

He needs to comment on

- a comparison of the average number of patients per doctor
- the consistency of the number of patients per doctor.

Write comments for the report.  
Remember to use calculations and figures to support your comments.
